✝ This year's gospel value is faith ~Matthew 14:22-33

Counselor's Corner!

Hello Gehlen Elementary Families!

It's been a busy start to the school year in Guidance classes! All students in grades Preschool through 6th grade have been learning about friendship and bullying. Preschool through 3rd graders have talked a lot about how they can be a good friend this year. Students in grades 4th through 6th grade have talked more in depth about cyber bullying and internet security. How can you reinforce what your child has learned in Guidance class? Ask them questions! Ask your child what they can do this year to focus on being a buddy to others.

If you have a 4th, 5th, or 6th grade student, also ask them about how they can be safe when they are online! The upper elementary students have been working on their own internet safety plans for home. Have some very important discussions about how they can use their technology wisely. Some of your discussion can be focused around the following:

- Use age appropriate apps, websites, and games
- THINK before you post
- Set time restrictions for electronics
- Talk only to people you know
- Report concerns when needed
- Be aware how to block or use security settings
- Don't share personal information

Jessica Brady
PK-6 Guidance Counselor
